GENESIS
LABS

WELLNESS IS YOUR BIRTHRIGHT.

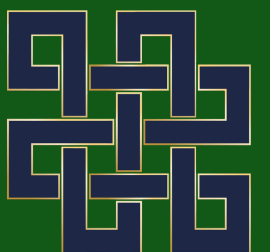

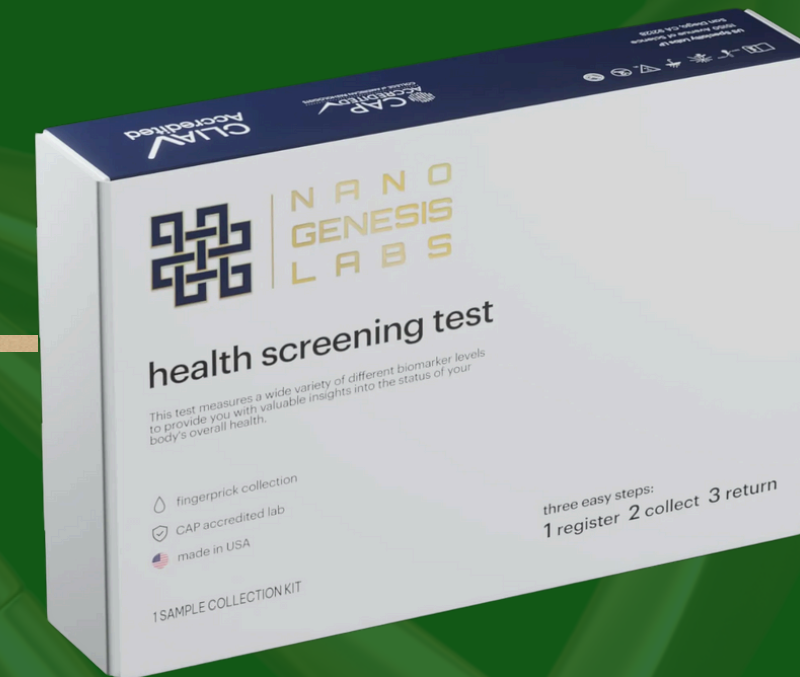

CLAIM IT!

WHO ARE WE?

Nano Genesis Labs is a Nigerian-owned biotech diagnostics and anti-aging company based in Irvine, California.

We have developed supplements rooted in safe, absorbable biotechnology. Our mission is to reduce inflammation, eliminate brain fog, and help people live healthier, longer lives through our precision health solutions.

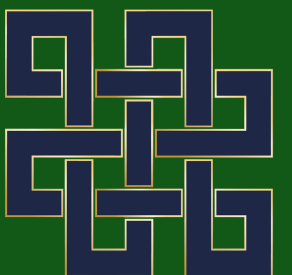

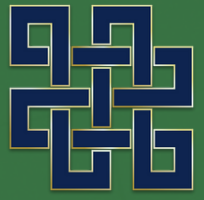

WHAT IS C60? WHY DOES IT MATTER?

Discovered in 1985 and awarded the Nobel Prize in Chemistry in 1996, Carbon 60 is a molecule made up of 60 carbon atoms arranged in a unique spherical structure. Its ability to neutralize free radicals has fascinated researchers for decades due to its extraordinary antioxidant capabilities.

C60 is up to 170 times more powerful than Vitamin C in neutralizing free radicals, the unstable molecules that damage cells and accelerate aging. In animal studies, it has been associated with increased lifespan, reduced inflammation, improved joint function, and enhanced energy metabolism. However, there's been one major problem — absorption.

WHAT IS THE PROBLEM?

Chronic inflammation and oxidative stress are key drivers behind a wide range of long-term health conditions affecting millions of people across the United States, diasporic Nigerians included. These two underlying processes quietly damage cells and tissues over time, often leading to physical, cognitive, and neurological disorders that reduce quality of life and increase healthcare costs.

According to national data, approximately 35% of adults in the US live with chronic inflammation, and millions more are affected by related conditions that include Arthritis, Alzheimer's, ADHD, Autism amongst other neurodegenerative and autoimmune diseases. The economic and personal toll of these conditions is substantial, as they often go undiagnosed until they manifest in advanced symptoms.

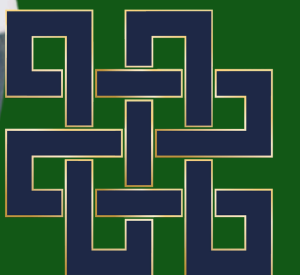

THE SILENT FIRE FUELING AGING

“**Inflamaging**” is the silent, low-grade inflammation that builds up in your body as you age — usually without significant symptoms.

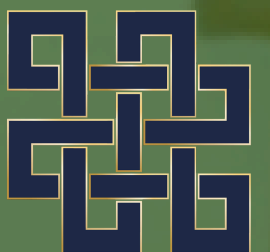

Unlike temporary swelling from injury or infection, this chronic inflammation fuels long-term damage. It’s been linked to memory loss, joint pain, heart disease, type 2 diabetes, and even weakened immunity and cancer.

The culprit? Oxidative stress, toxin buildup, and immune system miscommunication that trigger harmful cytokines like $\text{TNF-}\alpha$ and $\text{IL-1}\beta$.

REDEFINING WELLNESS

At Nano Genesis Labs, we believe that true health isn't just about surviving — it's about optimizing the way you think, feel, move and live. We are on a mission to bridge cutting-edge science with accessible wellness solutions rooted in bioavailability, transparency, and positive health results.

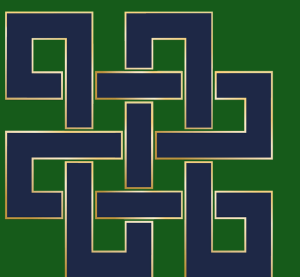

THE BREAKTHROUGH

At Nano Genesis Labs, we changed the game.

We developed our patented, water-soluble form of the novel Carbon Molecule — **C60** — a formulation that delivers clean, fast, and effective absorption of the antioxidative properties directly into your cells, without relying on oil or any toxic solvent, allowing the body to absorb it easily and safely.

This innovation makes it easier for the body to unlock **C60's** full potential, offering greater bioavailability, gentler digestion, and better long-term results.

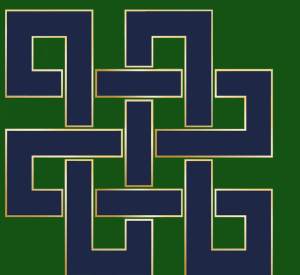

OIL-BASED C60

Most **C60** products on the market are mixed into olive oil, coconut oil, or other fats.

While this might seem like a convenient solution, it creates multiple issues:

- **Limited bioavailability:** The human anatomy is made up of over **60% water** and **20% carbon**. Oil and water don't mix which means your body struggles to fully absorb oil-based products.
- **Strain on the liver:** Consuming **C60** in large volumes of oil may place an unnecessary burden on the liver, especially in those with underlying conditions.
- **Oxidation risk:** Oil can degrade when exposed to light or air, potentially producing harmful byproducts and compromising the quality of the supplement.

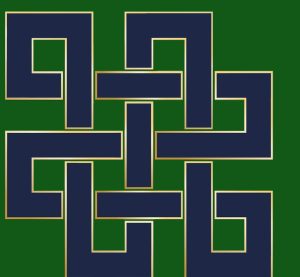

So while **C60** is powerful, oil-based delivery systems restrict its potential and can even create health concerns if not carefully formulated.

WATER-SOLUBLE C60

Because our formulations are water-soluble, we promote:

- **Maximum bioavailability**, allowing your body to utilize more of what you are made of (Water & Carbon).
- **Gentler on the liver and digestive system**, since it doesn't rely on fats & oils to deliver the anti-oxidative and anti-inflammatory properties of C60.
- **Clean delivery** of the full antioxidant potential of C60 without the risk of oil degradation.

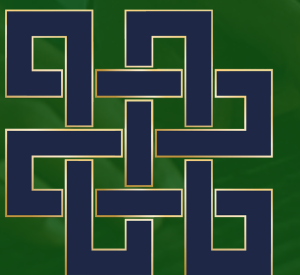

SERVING COMMUNITIES NATIONWIDE

Our work doesn't stop in the lab. Across the nation, we've partnered with individuals, wellness centers and practitioners around the country to improve the quality of life in real communities including seniors dealing with arthritis and seek better joint mobility, professionals fighting burnout from excessive stress, and everyday people seeking natural health alternatives that actually work.

We've helped people move better, feel better and think clearer — all without stimulants or side effects.

Our formula is designed for those who desire support for healthy aging, joint mobility, recovery, healthy inflammatory response, mental clarity and more without compromise.

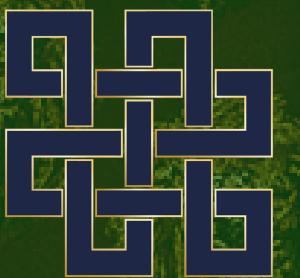

WHY WE ARE HERE

As we participate in the 16th annual Mbaïse USA 2025 Convention, we do so with deep respect, not just as innovators, but also as representatives of our dear Mbaïse.

At Nano Genesis Labs, we see this gathering as an opportunity to connect, share, and grow alongside a community that values both heritage and forward thinking.

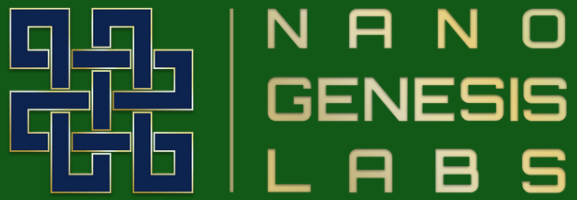

Our mission goes beyond products. It's about reshaping the future of wellness through science and accessibility.

Stop by our booth to explore how our innovations are supporting healthier lives across communities — and how together, we can build a stronger, more vibrant future for all.
